EDUCATION

Denison University | Granville, OH

August 2024-Present

B.S. in Data Analytics + Minor in Machine Learning & AI, Expected May 2028

GPA: 3.57

RELEVANT SKILLS

- **Programming:** R (ggplot2, dplyr), Python (Pandas), SQL, Power Query, Marimo, DuckDB
- **Analytical Methods:** Linear and Logistic Regression, T-Testing, Descriptive Statistics, Probability Models, Sampling Distributions, Hypothesis Testing
- **Software:** Power BI, Microsoft Excel, Marimo, RStudio, SPSS, GitHub, Linux/Ubuntu

WORK EXPERIENCE

Denison University | *Teaching Assistant, Data Analytics, DPR*

January 2025 – Present

- Deliver regular one-on-one support and office hours, guiding 30-50 students yearly through course concepts and R programming, translating technical material for a primarily non-code-fluent audience
- Collaborate with instructors to identify common areas of difficulty and adapt strategies accordingly
- Manage off-hour student concerns and coding difficulties, creating appointments when necessary

Harvest Table @ Denison University | *Student Worker - Sales Associate*

October 2025 – Present

- Handle daily cashier duties, managing up to 300 customer interactions and daily stocking tasks
- Manage food preparation in both cafe and sandwich-shop settings, preparing 50 to 100 orders per shift

Ohio State College of Veterinary Medicine | *Data Analytics Summer Intern*

June 2026 – August 2026

- Cleaned and recoded survey data in R from ~800 responses (students, alumni, employers) across 7 class years and 30-60 Likert-scale questions per survey, using Power Query for validation
- Built three Power BI dashboards and Datawrapper visualizations to track longitudinal trends in program satisfaction and skill confidence across student, alumni, and employer surveys
- Identified a significant, systemic training gap in ultrasound skills, previously unrecognized by faculty, by cross-referencing student confidence against hands-on practice frequency and frequency counts from qualitative responses, presenting findings via a 30-slide report to the associate dean
- Authored 12-page technical documentation and well-commented R scripts, including logic to reconcile inconsistent question numbering across years, ensuring reproducibility for future interns

PICS Inventory Specialists, WIS Corporation | *Inventory Counter / Auditor*

May 2025 – August 2025

- Audited retail inventory, accurately processing over 7,000 items per shift with minimal discrepancies
- Developed efficiency with 10-key entry and collaborated with teams of 10-15 across central Ohio to complete storewide audits for major chains under strict time constraints

PROJECTS

Carl Bot | *Live Raspberry Pi Discord Bot*

January 2026 – April 2026

- Built a Discord bot in Python (discord.py) implementing a custom shop economy for a 50-member club, with buy/sell/use commands, inventory management, trading, and admin currency controls
- Designed an in-memory JSON-based data model with persistence to track currency and inventory state across sessions, along with regular automatic backups to address points of failure

LEADERSHIP AND CAMPUS INVOLVEMENT

Denison Survivor Club | *Production and Executive Board Member*

September 2024 - Present

- Contribute to the design and planning of a semester-long interactive, asynchronous game, developing strategic elements like hidden advantages and puzzles
- Evaluate game challenges for safety and inclusivity, diplomatically navigating group dynamics to revise elements that pose risks or inequality among competitors
- Develop and coordinate detailed schedules for reviewing 20+ challenges, managing timelines and priorities for a 10-person executive board
